SUMMARY

My name is Videla Navya, I am currently pursuing my Under Graduation in Bachelor of Technology in Computer Science and Engineering at KL University, Vijayawada, seeking to leverage my technical skills and passion for programming to contribute to innovative projects. Proficient in Full Stack Web Development.

EDUCATION

Institute Name	Course	CGPA / %	Period
Koneru Lakshmaiah Educational Foundation , ...	Bachelor of Technology	9.57	Jul 2022 - Ongoing
Narayana Junior College , Guntur	MPC(Intermediate)	95	Aug 2020 - May 2022
Kids Patasala English Medium High School , ...	SSC(High School)	90	Jul 2019 - May 2020

PROJECTS

- Hotel Management System** Dec 2023- May 2024
 - This is my first SDP where I have gained a lot of knowledge. I have a Hotel Management System using MERN Stack for responsive user interface. I have used a framework called React and Node.js and for back end MongoDB. Technology Stack: MERN (MongoDB, Express.js, React.js, Node.js)
- Improve interaction between citizens and politicians** Jul 2024- Ongoing
 - Developing a web-based platform that allows citizens to interact with politicians and government officials. The platform includes features such as forums and message boards for citizens to discuss issues with politicians, as well as for politicians to submit proposals and respond to citizen feedback. Skills: Java, Spring Boot, React.js, HTML, CSS.

INTERNSHIP

- AICTE, Web Full Stack Development** Feb 2024 - Aug 2024
 - I recently completed the AICTE Virtual Internship, where I honed my skills in HTML, CSS, Version Control Systems (VCS), SQL, and JavaScript. This hands-on experience allowed me to build a solid foundation in web development, from designing responsive websites to managing databases.
- JPMorgan Chase, Software Engineering Job Simulation** Jul 2024 - Aug 2024
 - Developed skills in testing, deployment, and improving software quality through code reviews and pair programming.
